Standard Varieties

Buy your Geraniums in late winter. Grow them in your window until danger of frost is past—then set them in the ground outdoors.

This will give you color in your windows and older and larger plants for your outdoor flower beds.

These Geraniums are 4 to 8 inches tall, ready to start blooming. Many will be in bud or bloom when you receive them.

All plants are grown in 2 1/4 inch pots and are shipped to you in the soil in which they are grown.

INFORMATION, TERMS, ETC.

General Terms—Cash with order. We pay delivery charges to any point in the United States on all seeds, and on plants if order amounts to \$2.00 or more. On orders of less than \$2.00, please include 25¢ to cover costs of postage, packing and handling. Due to weight of plants and distance, 10 per cent additional will be required on all orders for plants from the far western states.

Method of Shipment—All plants are carefully wrapped and packed. Shipment is made the best way. Seeds and small plant orders are sent by parcel post, large orders by Prepaid Express. If you are unable to receive orders by Express, please advise when placing order.

Special Services—Either Special Handling or Special Delivery may save a delay of one to several days,

which could mean very much in the growth of your plants. If either service is desired, please include remittance to cover. On orders of less than \$5.00, the charges are usually 20¢ for Special Handling and 35¢ for Special Delivery. Air Parcel Post is very satisfactory, but expensive. If this method of transportation is desired, please inquire about shipping weight and rates.

Substitution—We attempt to keep a complete stock of the items listed. As there are many factors entering into the production of plants and seeds, occasionally we are unable to supply certain items ordered. If we may substitute, please so indicate on your order blank, and if possible, give second choice. Otherwise, a refund will be made on those items we are unable to ship.

We Guarantee Satisfaction—If you are not pleased with your order, or if it reaches you in poor condition, please advise at once. If possible, a replacement will be sent to you. If not, your money will

be refunded. We watch weather conditions and do not ship plants in extreme weather. Should there be a mistake on your order, advise promptly, and we will do our best to correct it. No claims on damaged plants will be given consideration if made more than 10 days after receipt of your package.

All plants listed are young, potted plants, in a healthy growing condition, and are shipped to you in the soil in which they were grown.

Because of the many conditions affecting plant growth, we make no warranty, express or implied, as to the productiveness of plants, bulbs, and seeds listed herein, and we will in no case be liable for more than the original purchase price.
